ADDENDUM 4

To: All Interested Proposers

From: Linda Gonzalez, Inventory Bid Technician

Date: June 11, 2007

Subject: Bid# 07-071, Air-Paks for the Detention Facility

The Purchasing Department received questions relating to the above referenced proposal.

1. Can you describe what an air pack is for a detention facility?

Air-Paks are Self Contained Breathing Apparatus (SCBA) and provide respiratory protection in the event of a fire or chemical spill/release. The SCBA are used by detention personnel when fighting fires or during hazardous materials incidents. The Air-Paks will be used by uniformed personnel assigned to the Detention Facility.

2. Can you provide a picture?

See attachments

3. Do you require a specific brand?

All of the Air-Paks we currently have are manufactured by Scott Health and Safety. The entire training curriculum is written for Scott Air-Pak 2.2 Pak Fifty. The Jail Annex utilizes the Scott Air-Pak 2.2 Pak Fifty. We need to maintain Scott Air-Paks as the exclusive SCBA used in the facility. Officers work from one facility to the other and the safety equipment needs to be the same.
